

Access 303

The Access 303 features two sails and is available in single seat and wide seat models.

Like the 2.3, the wide seat model can be sailed by one or two persons, however the 303 has a greater carrying capacity, along with more ballast and sail area. Over 350 of this ISAF Recognised class are sailing worldwide.

Easy to Sail

- Simple to use joystick steering
- Forward facing sling seats for comfort
- Responsive and manoeuvrable
- Easy to assemble and launch

Safe & Stable

- Weighted centerboard for stability
- Low centre of gravity seat position
- Roller furling mainsail and jib

Options

- Servo electric controlled steering and sail setting
- Keel lifters
- Shore shuttle
- Boat and sail covers

The Access 303 offers more performance whilst retaining the simplicity and safety features of the 2.3. It is an ideal boat for recreation and introductory racing on waterways that are less protected.
